

Role and Overview

The Department of Education's vision is higher achievement for all students, regardless of race, ethnicity, income level, language background, disability status, or gender. The department seeks to ensure all students graduate well-prepared for success. To achieve this vision the State Board of Education has identified the following three objectives: teach 21st century knowledge and skills for real-world success, effectively deliver support for a high quality education, and provide sufficient resources that are effectively managed. The department oversees an education system comprised of 613 public school districts, 49 joint vocational school districts, 56 educational service centers, and over 300 community schools. Each public school district is governed by a locally elected school board that exercises taxing authority subject to voter approval. The department also oversees the chartering of nonpublic schools.

The department is governed by a 19-member State Board of Education. Eleven of the board members are elected by the citizens, one from each of 11 districts composed of three contiguous Ohio Senate districts. Eight board members are appointed by the Governor. Day-to-day administration of the department is the responsibility of the Superintendent of Public Instruction, who is hired by the State Board of Education. The department has a full time staff of approximately 600.

GRF appropriations in the school funding line items 200502 (Pupil Transportation) and 200550 (Foundation Funding) increase by 1.4 percent from fiscal year 2011 to fiscal year 2012, and by 1.5% from fiscal year 2012 to fiscal year 2013.

More information regarding the Department of Education is available at <http://www.ode.state.oh.us>.

Agency Priorities

- Provide the basic education funding necessary to support student success and achievement.
- Offer early learning programs to promote school readiness.
- Support student intervention programs that provide students who are performing below expectations a chance to succeed.
- Initiate school improvement programs that improve the school learning environment and engage parents in the learning process.
- Assist districts to effectively and efficiently manage resources and improve financial practices.
- Provide focused, high quality professional development for educators.
- Implement academic standards that set the expectation for what all students should know and be able to do.
- Align student assessments through development of achievement tests with the academic content standards to determine whether a student is meeting the expectations embodied in the standards. Hold educators and students accountable for performance, and provide data that are used to inform educational decisions.

Funding Recommendation for FY2012 and FY2013

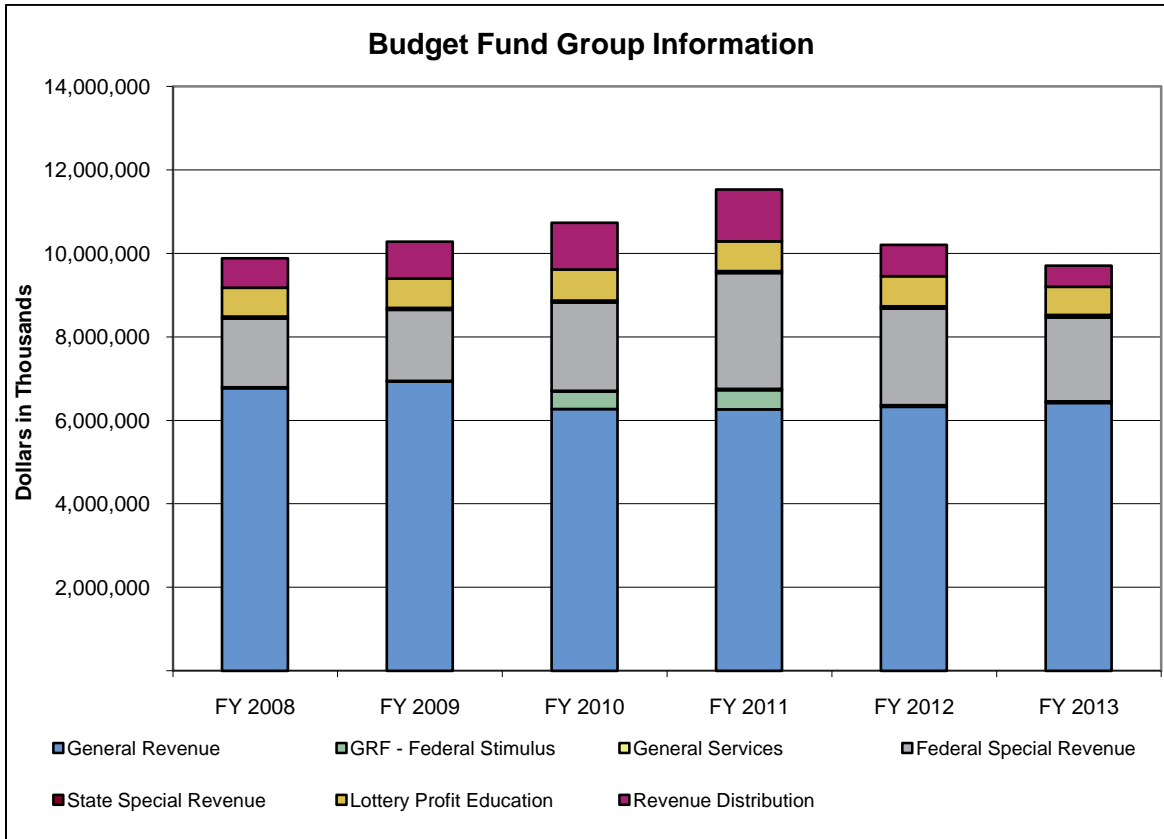

Funding Summary

- GRF: Funding for fiscal year 2012 is \$6.3 billion (or a 1.0% increase from fiscal year 2011). Funding for fiscal year 2013 is \$6.4 billion (or a 1.4% increase from fiscal year 2012).
- All funds: Funding for fiscal year 2012 is \$10.2 billion (or an 11.5% decrease from fiscal year 2011). Funding for fiscal year 2013 is \$9.7 billion (or a 4.9% decrease from fiscal year 2012).

The Executive Recommendation will fund the following objectives:

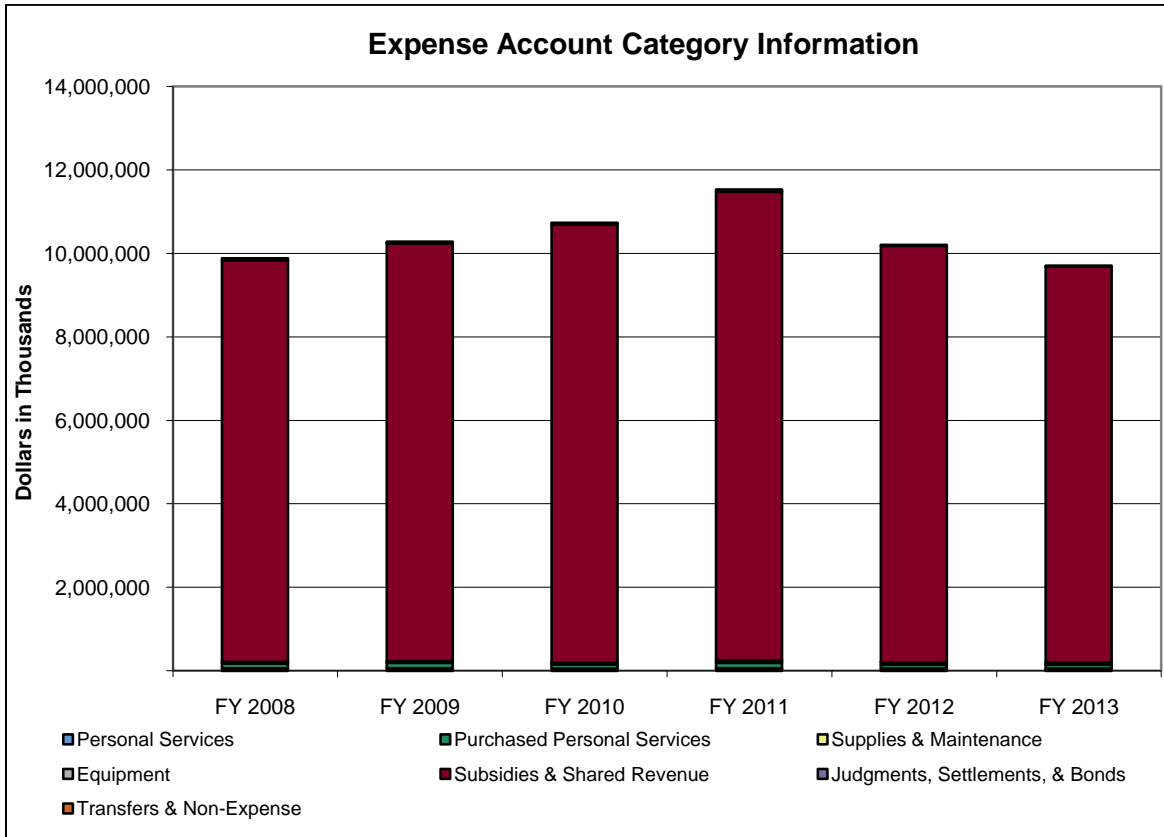

- Increase state GRF support for the school foundation funding program. Increase funding for nonpublic schools to support the purchase of secular services and materials as well as to reimburse nonpublic schools for mandated administrative and clerical costs.

- Promote teacher quality by providing additional payments for students that exceed achievement growth. Promote school district operational efficiencies by encouraging creation of regional shared services models.
- Maintain funding for Joint Vocational School Districts. Redistribute \$1,000,000 in each year that is currently distributed to Tech Prep Consortia to provide an increase for the High Schools That Work program and Tech Prep grants. Maintain funding for the match required for federal Perkins administrative funding. Support the development of academic, career, and technical skills of secondary students who enroll in career and technical programs.
- Develop assessments aligned with the newly created content standards. Fund the distribution, collection, scoring, and reporting of more than 3.3 million achievement tests, 46,000 alternate assessments, and 39,000 Ohio Test of English Language Acquisition (OTELA) in each year of the biennium.
- Maintain funding for early childhood education that currently supports about 5,700 children, preschool special education that currently supports about 2,000 classroom and related service units, and licensure and inspection of child care and preschool programs to ensure basic health and safety standards.
- Provide the oversight necessary to issue nearly 100,000 certificates and licenses annually, and manage the teacher licensure investigation and revocation process.
- Provide technical assistance and oversight for Ohio's school choice programs and community schools.
- Provide assistance to districts in fiscal distress, especially those districts in fiscal emergency. Provide funding advances to school districts to enable them to remain solvent and grants to school districts that suffer unforeseen catastrophic events that severely deplete their financial resources. Support planning, coordination, funding simulation, and analysis for all districts.
- Maintain reimbursement to districts for half of their costs to provide home instruction to special education students, fund over 50 parent mentors who provide support and information to parents of children with disabilities, and fund school psychologist interns who serve students with disabilities.
- Provide efficient and effective administrative support through fiscal, human resources, and a variety of other services. Reduce the department's general administrative and program support by 8.7%.

- The decrease in GRF – Federal Stimulus is due to the expiration of federal stimulus funds appropriated for the fiscal year 2010-2011 biennium via the American Recovery and Reinvestment Act (ARRA) of 2009.

Program Series 1: Academic Achievement (6220A)

This program series incorporates federal school improvement and student intervention programs. It provides assistance to districts, buildings, and students most in need of academic improvement. These programs and services include strategies to target districts and buildings in Academic Emergency and Academic Watch, redesign high schools, improve urban schools, improve the school environment for learning, and engage parents in the learning process. Major initiatives include High Schools that Work programs, dual enrollment options, and school improvement models that combine rigorous academic studies with work-based learning. Fifty percent of the reduction in line item 200431 is redirected to Educational Service Centers that will be responsible for providing school improvement services to school districts.

Program Series 2: Basic Aid Support (6325A)

This program series incorporates state support for schools. This is the major source of funding for the general operation of school districts, community schools and JVSDs. It also provides funding for chartered nonpublic schools. Non-public schools receive administrative cost reimbursements and support for auxiliary services such as the purchase of secular textbooks, health and diagnostic services, guidance and social work counseling. The funding increase (1.4 percent in fiscal year 2012, and 1.5 percent in fiscal year 2013) for nonpublic schools represents the same aggregate percentage increase of the line items 200550 (Foundation Funding) and 200502 (Pupil Transportation). Also included in this program series are the declining reimbursement payments for the phase out of the Tangible Personal Property Tax and the Public Utility deregulation.

Program Series 3: Career-Technical Education (6600A)

This program series includes funding for career-technical and college-based programs in school districts, JVSDs, community schools and institutions. Ohio's career-technical education system offers sequences of career-technical courses that support the academic and technical knowledge and skills needed to prepare students for further education and careers in current and emerging employment sectors. Career-technical education also includes programs and services designed to help Ohio's students develop career plans, identify initial educational and career goals and develop the skills necessary to make informed career and educational choices throughout life.

Program Series 4: Curricula, Assessment, Accountability (6000A)

This program series includes student assessments, academic standards and model curricula, and education accountability. This program series is the cornerstone of a strong educational system and promotes higher achievement for all students by setting high expectations through rigorous academic content standards, assessing students on those standards, and measuring and reporting the results. The assessment system serves to determine whether or not students meet the expectations embodied in the standards and if high school students are ready to enter college or the workforce upon graduation. Ohio's accountability system measures and reports the results of the assessments to students, parents, educators, administrators and policymakers through the Local Report Card.

Program Series 5: Early Childhood Education (6570A)

This program series includes support for Early Learning Programs, Child Care Licensing, and Preschool Special Education. Appropriate and effective early learning experiences are important prerequisite for school readiness, particularly for at risk children. This program provides the basic elements of quality prekindergarten programs by aligning early learning standards to an assessment system, promoting qualified and competent teachers, program standards, job-embedded educator training, parental support, and linkages to health and developmental services.

Program Series 6: Educator Quality (6120A)

This program series includes programs related to educator preparation, training, recruitment and retention. It prepares caring, competent and qualified educators for Ohio's schools. The State Board of Education is responsible for establishing standards for the preparation of beginning teachers, licensing the graduates of approved programs, and administering the teacher disciplinary process.

Program Series 7: Gifted Education (6670A)

Gifted education focuses on identifying and serving students who perform, or show potential for performing, at remarkably high levels of accomplishment compared to others of their age, experience, or environment. Services include resource rooms, self-contained classrooms, and accelerated coursework. Instruction is based on the identified needs of students and a written education plan. Gifted education requires modifications, such as a differentiated curriculum, more open-ended and abstract tasks, an emphasis on analytical thought and problem solving, and increased emphasis on multidisciplinary and research-focused studies. Approximately 16% of Ohio students are identified as gifted. Gifted education funding in the fiscal year 2012-2013 biennium is included in the basic aid support for schools districts. The spending requirements for gifted education are eliminated. Included in this program series is funding only for gifted units provided by Educational Service Centers.

Program Series 8: School Choice (6300A)

This program series includes community school and school choice administration funding, the Cleveland Scholarship and Tutoring Program and the Educational Choice Scholarship Program. ODE provides oversight, monitoring and technical assistance for these programs. The purpose of the school choice program is to meet the diverse educational needs of Ohio students by promoting and supporting educational options and choices.

Program Series 10: Special Education (6500A)

This program series incorporates various funding streams and programs for special needs students. The program provides special education and related services, aides and supports in the regular classroom when appropriate, and builds the capacity of school districts to meet the academic and behavioral needs of students with disabilities and other at risk learners. Decreased funding levels in this series is a result of the expiration of the federal stimulus program.

Program Series 11: Program Management (6825A)

This program series supports overall agency operations and administration. This includes fiscal administration, human resources, facilities and fleet management, document processing, organizational development, and technology infrastructure. Though GRF supported administration has been reduced, receipts of private grants increase the overall funding level in this program.

Program Series 12: Students At Risk (6700A)

This program series helps districts and schools improve the teaching and learning of children who are failing, or most at risk of failing, to meet state academic standards and to be successful in their education. The single largest federal funding source is the Title I program for low-income students. Other federal grants included are for migrant and homeless families and students in local institutions for neglected and delinquent children. The funding decrease in this series is a result of the expiration of the federal stimulus program.
