Efficient, Effective, Connected

Ohio's ESCs employed over 13,100 full- and part-time individuals in the 2007-2008 academic year. During that same period, Ohio's ESCs provided direct services to 270,823 students or 15.5% of Ohio's student population - many of whom are at-risk students. ESCs also hosted 10,475 different professional development activities attended by 242,853 total attendees.

Ohio's ESCs
Making a Difference Since 1914

Message from the Executive Director

On behalf of the Ohio Educational Service Center Association (OESCA), the OESCA Executive Committee, and Ohio's 56 educational service centers (ESCs), I am pleased to present our 2011-2012 membership directory.

This valuable resource will allow ESC and school district personnel, public policy makers, local government leaders, and other stakeholders to access contact information for each of the 56 ESCs.

Please take a few minutes to familiarize yourself with this reference tool. You will find important information about OESCA's members, our executive committee, standing committees, and business partners.

OESCA members and business partners support the association year after year and make it possible for the association to continue to advance its mission to support Ohio's 56 ESCs and improve operational, fiscal and academic outcomes for Ohio's school districts and the students they serve. I want to personally thank them for their continued support and commitment to the success of Ohio's ESCs.

For nearly 100 years, ESCs have been dedicated to providing school districts with professional development, technical assistance, curriculum and instruction, special education, and administrative services that help improve student learning, enhance the quality of instruction, expand equitable access to resources, and maximize operating and fiscal efficiencies. These services have often been delivered through a shared services, consortia model. With the recent passage of the FY 2012-2013 state operating budget, ESCs may now leverage these experiences and services in partnership with local political subdivisions. We look forward to this new opportunity to work with local government partners to enhance service delivery to all Ohioans.

Enjoy the 2011-2012 OESCA membership directory.

Sincerely,

Craig Burford
Executive Director

Ohio Educational Service Center Association
