

LEAN SIX SIGMA YELLOW BELT TRAINING:

The fundamentals of LEAN Six Sigma

*Are you always asked to do more with less? Are you trying to ensure your operations are working as efficiently and effectively as possible? Are you striving for a culture of success?
Then this Lean Six Sigma Yellow Belt Course is for You!*

Presenter:

Brad Hollingsworth, Process and Organization Improvement, Muskingum Valley ESC

Overview

The introductory course provides familiarity with the methodology and practice of using the fundamental tools of Lean Six Sigma, a proven approach to process improvement and problem solving.

Participants will be able to:

- Recognize and explain the value of process improvement.
- Follow the methodology and apply the basic tools and concepts on improvement projects.
- Contribute as an effective project team member.
- Understand and serve in the role of a project champion and a process owner.
